

To whom it may concern,I would appreciate it if K-Love radio was not taken off the air in our area.(or any other for that matter)K-Love has changed so many lives.People have listened to the station and it has helped them to give their life over to God and to help them to make a major change in their lives.I think that taking them off the air would be a grave mistake.I just pray that you would take into consideration the inpact that it would have on people to take this station from us all.Thanks and God Blee You.
